NET LOSSES THE RULE

Week's Tendency Has Been Strongly Reactionary.

New York, Feb. 11.-There was profittaking on quite a heavy sale in stocks today, said to be for the account of one of the principal bull operators. The interval of two days before trading will be resumed on the exchange was the motive terday; No. 2 cash, 2%; February, 25%; for closing up some accounts, as is alterday and steel has done much to add to the cereal will be carried on a through rate from Chicago to Liverpool, so it results and continued and steel has done much to add to the confidence with which the trade outlook has been confidence with which the trade outlook day. The spring rise was largely influenced by the higher quotations for Americans in London, and was also helped by the marked strength of one or two specialties, notably Metropolitan Street Railway and People's Gas, the latter on the published report of the company's finances. London bought here on a considerable scale and helped to sustain prices to some extent. But the offerings were not well absorbed and support was largely withdrawn. The weakness of stocks averaged the putting out of short lines. The covering of some of these before the close brought them to a level materially above the low point, but still left net losses as the general rule. There were some very striking movements of stocks in special cases. The total sales of stocks today were

386,900 shares. DAY'S BOND DEALINGS.

The day's dealings in bonds continued on a remarkably large scale, single lots of par value from \$50,000 up to \$150,000 changing hands frequently. The par value of sales for the day of Atchison adjustment fours alone was \$420,000. Some of the speculative bonds reacted quite sharply in sympathy with stocks, but the general tendenc ywas upward.

THE WEEK REVIEWED. There has been a strong tendency to reaction in the stock market at times durinig the week, principally due to apprehensions regarding the Cuban question. Early n the week the market was sold year: very aggressively by houses with Washington connections and this was interpreted as being induced by a belief that affairs with Spain were reaching a critical stage. The manner in which the outcome of the De Lome incident was accepted in Wall street induced a large covering of short contracts by these Washington sellers and the market railled strongly on Thursday, but this rise was attributed today'sa dvance gave color to this supposition. The market seemed to be in the hands of giants in speculation and they 4.60, with one lot at \$4.77\%. A few prime checked by support. That the market is bulls sold for \$4.10\%, and prime calves heavily over-bought for great speculative accounts looking to be ultimately sold for profits is generally believed.

Chamberlain's Cough Remedy Always

Proves Effectual. market than Chambertain's. We have falled, and in every instance it proved effectual. Almost daily we hear the virtues of Chamberlain's remedies extolled by those who have used them. This is not an empty puff, paid for at so much a line, but is voluntarily given in good faith, in the hope that suffering humanity may try these remedies and. like the writer, he benefited .- From the Glenville (W. he then came out in his true colors, and said they had determined to prevent my going forward, by force, and at a signal from him twenty-two men armed with rifles came out of the timber and covered the party. Noblett said that they had cossession of the cuche. As Lieuzenant Richardson was there, and I had not heard any firing. I knew his statement was false and said so, at the same time starting on, and told him they might open fire if they wished to. He then said that as conditions were changed by my selzure of the stores, and they were loth to dis turb governmental property, that if I would wait a few moments he would con-

suit with the committee, and asked if I was still willing to feed the destitute. stated my terms to fed the destitute, and as long as the companies would take wood they were to go to work at the rate of \$5 per cord and if they could not get work they would be fed if possible until the river opened; that bona fide miners could obtain outfits provided they went in the field at once.

"In a few moments he (Noblett) re turned and said they accepted the terms and I went on to the cache, where I found between thirty and forty men who said they had nothing, and I caused all to be fed. I have hoisted the flag over the buildings and placed a guard.

NOT NEED, BUT ROBBERY. "This is not a case of worthy destitute niners; it is premeditated robbery, and had they been able to get possession of either Lieutenant Richardson or myself, the cache would have been lost. A num ber of very desperate characters have been forced out of Dawson, Northwest Territory. There are quite a number in the campe near the cache and I learned today that they have ben quietly secur-ing arms ever since their arrival here and mean mischief. I am securing all the arms and amunition I can. I shall move with caution and get matters into such shape as to hold the balance power. TO CHECK IMMIGRATION. Under date of November 2, Captain Ray recommends that the government "take steps to effectually check immigration to this region of all people who do not come prepared with sufficient provisions to last them for two years."

The next day he submits a recommen dation for a patrol steamer to check the operations of the lawless.

Accompanying the report is a letter to the adjutant general from President Weare and Manager Healy of the N. A. T. & T. company, strongly appealing for the protection of the strong arm of the military, and a letter to Captain Healy from Captain Ray advising the company that it must take steps to check the exedus down the river as far as possible that provisions are short, amounting to less than 300 tons, though the two cominfluence to secure legislation for the protection of the country by the military.
